

**North Fair Oaks Community Council**  
San Mateo County Coordinated  
Departmental Response

**Date:** September 18, 2015  
**NFOCC Meeting Date:** October 22, 2015  
**Special Notice / Hearing:** None  
**Vote Required:** Not Applicable

**To:** Members, North Fair Oaks Community Council  
**From:** Joseph LoCoco, Deputy Director, Road Services, SMCo Public Works  
**Subject:** Parking Regulations

**RECOMMENDATION:**

That the Council recommend approval by the Board of Supervisors of proposed parking regulation modifications within the North Fair Oaks community.

**BACKGROUND:**

The San Mateo County Department of Public Works routinely receives requests from property owners to modify parking regulations immediately in front of their property.

Upon receipt of such requests, the Department considers whether the requests are reasonable from an engineering perspective. If the Department determines the requests to be reasonable, it contacts property owners within 300 feet of the site where modifications are requested to solicit their feedback regarding the proposals.

This feedback is considered in recommendations made to the Board, whose action is required for any regulatory parking modifications.

**DISCUSSION:**

The Department received two separate parking modification requests for which it presently recommends approval. The requested modifications are summarized below:

- 13 linear foot No Parking Zone at 2384 Bay Road
- 16 linear foot Compact Parking Zone at 354 First Avenue

Notices will be sent week of September 21, 2015 notifying residents of the time and date of various meetings.

**FISCAL IMPACT:**

The cost of installing new regulatory signs is estimated to be \$500.00 per sign. These costs are a direct expense to the Department of Public Works' Road Fund.
