Dear. Ms. Leung,

RE: Highlands Construction project, massive increase in grading quantity.

I'm writing to make a formal comment and object to the EIR Addendum ("CEQA document") and efforts to frame a massive grading increase as a minor modification along Ticonderoga road.

It is a significant deviation from the originally approved plan. Thus, the proposed new grading must go before the planning commission and board of supervisors who originally approved the project to get a revised approval.

In addition, there is evidence that it is a habitat for the white tailed kite as one has been photographed at the site. Which was not considered in the original EIR.

Regards
Gary Trott
