Subject: RE: Comment for Highlands EIR Addendum under CEQA

Hi Dan,

The County has considered the requests from interested members of the public for a 15-day extension of the scheduled June 17, 2021 close of the public review period for the Highland Estates EIR Addendum. The request has been granted to allow the public more time to review the EIR Addendum and appendices, with the County's decision on the project modification request to be made after July 2, 2021.

Thanks

I'm a neighbor who has been following the progress and also whose privacy is impacted by the development of lot11 house by the Chamberlain group.

I have been astounded by the leniency for which the county has allowed the builder to encroach on the expectation of these homes. (evident in the attached photo of the proposed vs actual height of the lot11 house; also the aesthetic designs of these homes that were promised to be "in keeping with the neighborhood" but clearly not of the mid-century style of the houses that composes the largest Eichler tract in the nation)

I would like to ask for an extension on the comment period as it would give everyone involved more time to look over what is being changed from our prior expectations of the development.

Thank you
Dan Tu
